sponsorship packet

WOMEN BUILD is an annual fundraising event that **empowers women** to invest in the communities in which they live and work by partnering with Habitat for Humanity. Women come together to build stronger and safer communities, and help families in need of decent and affordable housing build better lives for themselves and their children. During the two-day event, women select a half-day shift of their choice and build alongside Habitat families, learn construction skills, build new friendships and business connections. Participants commit to a fundraising goal and build individually or form teams with friends or colleagues. Women helping women sends a positive and powerful message, and creates a lasting impact in the lives of families and communities served by Habitat for Humanity.
